Providing Services

Mitsui Sumitomo Insurance is one of leading Non-Life Insurer in Japan as a member of MS&AD Insurance Group.

We carry out our international business through our overseas network of 42 countries and regions, making full use of over 90 years' experience in international business. By utilizing of our strong network in Africa, we provide products and services as reinsurer to alleviate the wide variety of risks occurring throughout Africa. We aim to contribute to the development of a vibrant society and help secure a sound future for Africa.

Our Network in Africa

As we do not have direct insurance licenses in Africa, we offer insurance coverage through our partners in Africa who issue insurance policies as fronting insurers on behalf of us. In each country, we can introduce our partners and we will have re-insurance support. (It depends on the local regulations whether we will have re-insurance support.)

The below map shows countries where we can provide service through our partnership network in Africa as of Jan. 2021.
