Providing Services

NIPPON EXPRESS operates in 319 cities in 48 countries. We have 737 operating offices in the world. Drawing fully on a wide array of land, sea and air transportation modes, we provide one-stop business solutions as a logistics services provider that connects people and companies across national and regional boundaries. We established NIPPON EXPRESS EUROPE GMBH KENYA Branch as a first sales branch in Africa in AUG.2017. Then we established Morocco branch in DEC.2012. We are expanding service network in Africa. We have a unique division named Heavy Haulage & construction Business Division. They are providing services for transportation and installation of extra-large and heavy cargoes around the world.

Project Achievement / Technical Expertise

NIPPON EXPRESS CO.,LTD. handles many cases of special transportation and installation projects ranging from extra-heavy cargoes to high-technology equipment. We transport and install ultra-large equipment and facilities such as power and various other plants in every region of the world.

We can respond to all sorts of projects with various special-purpose vehicles and equipment, including a transporter with a loading capacity of approximately 11,000 tons and a crane with a loading capacity 1,350 tons.
