TODA CORPORATION's Global Vision

"A Corporate Group that makes your success possible"

For the satisfaction of our clients

We will build strong, reliable partnerships with our clients by delivering our precise technical expertise and comprehensive human resources.

For work we can be proud of

All of us at TODA work together to create a successful environmental that allows us to bring passion and a strong sense of responsibility to each project we undertake.

For future generations and our planet

We will create an environment-friendly society that is both safe and secure by aggressively tackling challenges posed by changing times and social circumstances.

The essentials that motivate us to move forward into the future

To steer us away from the changing tides of time and open up the right path, TODA CORPORATION has mapped out a new global vision:

A guideline that illuminates our way toward 2021, the landmark year that celebrates our 140th anniversary since foundation, and beyond.

Providing Services

1. Research, planning, design, management, and execution related to all aspects of architectural and civil engineering together with related comprehensive engineering and consulting
2. Research, planning, design, management, and execution related to local development, urban development, and other comprehensive engineering and consulting
3. Real estate sale and purchase, rental, intermediary services, management, and appraisal
4. Power generation projects such as renewable energy etc.
