Providing Services

With 2020 sales and revenues of \$41.7 billion, Caterpillar Inc. is the world's leading manufacturer of construction and mining equipment, diesel and natural gas engines, industrial gas turbines, and diesel-electric locomotives. Since 1925, we've been driving sustainable progress and helping customers build a better world through innovative products and services. Throughout the product life cycle, we offer services built on cutting-edge technology and decades of product expertise. These products and services, backed by our global dealer network, provide exceptional value to help our customers succeed. We do business on every continent, principally operating through three primary segments – Construction Industries, Resource Industries, and Energy & Transportation – and providing financing and related services through our Financial Products segment.

In Japan, we have been doing business in Japan since 1963 as joint venture with Mitsubishi Heavy Industry. We became 100% Caterpillar in 2008. As Caterpillar Japan, there are two key locations.

-Yokohama Office (Headquarters): Marketing functions of all Cat products sold in Japan and development base of small products. Caterpillar has development center for small / compact products and development & production base for hydraulic excavators in Japan.

-Akashi Campus: Hydraulic Excavator Development Center (HEDC) , the world's only development base for Cat hydraulic excavator and the mother plant of the hydraulic excavator boasting over 300,000 production cumulative . Through manufacturing in collaboration with Japanese suppliers, we are sending products and technologies to about 100 countries around the world.
